Experience / Projects

Lead Web Developer | "Fire-Boltt" E-Commerce Project

- Designed and developed a full-featured e-commerce platform from the ground up using ASP.NET and C#.
- Implemented core shopping functionalities, managed backend database integration, and ensured a seamless user experience for browsing and purchasing products.

Web Developer & Designer | "Quiz World" Platform

- Architected and deployed an interactive, educational quiz website.
- Spearheaded both the technical development and the visual branding, including custom logo design and UI layout.

Freelance Graphic Designer & Marketing Consultant

- Designed high-impact advertising materials, including visiting cards, banners, and promotional posters for a retail business (Dhruv Shah) dealing in electronics and FMCG products.
- Utilized principles of visual design and non-verbal communication to optimize marketing assets for higher customer engagement.

Expertise

- Web Development : ASP.NET, C#, PHP
- Programming Languages: Python, Java
- Software Testing: Selenium, JUnit, Jira
- Data Science Libraries: NumPy, Pandas, Matplotlib
- Graphic Design: Branding, Posters, Promotional Materials
